RazorThreat Recognized By Corp! Magazine as a Business of Science and Technology Honoree

FOR IMMEDIATE RELEASE – Pontiac, Mich. – April 26, 2010 – RazorThreat is pleased to announce that they have been recognized by Corp! Magazine as one of the 2010 Business of Science & Technology honorees.

Corp! Magazine honored the companies and educational organizations that are leading the way in Science and Technology through innovation, research and applied science at its inaugural Science & Technology Awards breakfast.

“RazorThreat is grateful to be recognized as one of the companies moving science and technology forward in Michigan” said Greg Guidice, president and chief executive officer of RazorThreat

About RazorThreat

RazorThreat, based in Pontiac, Michigan, provides leading edge bot and malware detection software that protects businesses and governments from personalized cyber attacks. RazorThreat allows organizations to easily detect and remediate network-based security threats regardless of their source, identifying ‘true risk’ to the enterprise. The primary benefit of RazorThreat’s software is it finds the customized threats other security systems miss increasing the ROI of existing security solutions freeing up existing personnel to focus on other initiatives.
